SNEHIL DAGA.

SDUPWORKUSER

WWW.SNEHILCODES.IN

LARAVEL / SYMFONY/ ANGULAR / REACT DEVELOPER /VUE.JS

The cusp of code and technology has always fascinated me and I've never been afraid just to jump in and give it a go, whether it's front-end, Backend, any new Technology or a Tool. I've been writing codes since 2017

INDUSTRY EXPERIENCE

Senior PHP, Symfony, Laravel, React, Vue.js developer

Upwork March 2021 - Till Date

As a Full Stack Freelancer, I handled both front-end and back-end development. This includes designing user-friendly interfaces with HTML, CSS, and JavaScript, and building server-side logic with technologies like Laravel or Python. I also managed databases, integrate APIs, deploy applications, and set up CI/CD pipelines. Key responsibilities involve testing, maintaining, and supporting applications while communicating effectively with clients and staying updated with new technologies.

Sr PHP Developer & Lead

Profilics Systems Pvt Ltd March 2017 - Nov 2021

As a Lead PHP Developer, I effectively managed and delivered web projects on time and within budget, designing scalable architectures to handle growth. I mentored junior developers, streamlined processes, and optimized performance through technical innovations and best practices. My focus on security and code quality, combined with effective stakeholder collaboration and cross-functional coordination, ensured successful project outcomes. I oversaw smooth deployments and ongoing maintenance, receiving internal recognition for my leadership and contributions. My work enhanced team productivity and delivered high-quality solutions that met business needs and improved user satisfaction.

RELEVANT EXPERIENCE

Shipsaver

August 2021 - February 2022

www.shipsaver.com

I have extensive experience developing a comprehensive e-commerce logistics management system, which included:

- **Marketplace Integration:** Implemented features for selecting marketplaces and retrieving orders and product information.
- **Shipping Service Options:** Integrated choices for shipping services such as FedEx, UPS, and USPS.
- **Warehouse Selection:** Facilitated the selection and management of warehouses.
- **Operational Workflow:**
 - Managing shipments to warehouses
 - Receiving and processing shipments
 - Handling dispatch and delivery through Shipstation
- **Label Generation:** Enabled the creation of shipping labels via Shipstation integration.

This experience has equipped me with a deep understanding of the complete e-commerce logistics process, from order management to shipping and warehousing.

EDUCATIONAL QUALIFICATION

Masters in Computer Application (M C A)

2015-2017

Vikram University

The MCA syllabus includes programming languages (C, C++, Java, Python), data structures, DBMS, operating systems, software engineering, computer networks, and web technologies. It also covers mobile app development, cloud computing, machine learning, and cybersecurity, with practical experience through labs, projects, and a dissertation or internship.

Bachelors in Computer Application (B C A)

2012-2015

Vikram University

The BCA syllabus includes programming languages (C, C++, Java, Python), data structures, DBMS, operating systems, software engineering, computer networks, web technologies, and mobile app development, with practical experience through labs and projects.

TECH STACK AWARENESS

I have strong expertise in full-stack development with **SYMFONY**, **ANGULAR**, and **REACTJS**. My experience includes **REST API** development and integration, and I utilize **POSTMAN** for thorough testing. In my **AGILE LEADERSHIP** roles, including as a **SCRUM MASTER**, I ensure effective project management and team collaboration. I am proficient with **AWS** services for **CLOUD COMPUTING** and **DOCKER** for containerization. My database skills encompass **MYSQL**, **MongoDB**, and **POSTGRES**. Additionally, I handle **ERROR LOGGING** and **PERFORMANCE OPTIMIZATION TOOLS**, and I use **GIT** for version control.

My background and skill sets have prepared me to be a successful contributing team member in this environment and for an organization like yours. Thank you so much for your time and consideration.
